Ideas for 30-minute class presentation to upperclassmen

- 3-minute STLR info video
- Pop quiz: Can you identify the four ways you can get STLR credit from the video?
- Show the four ways to earn “credit” under How STLR works
- Website: feeds of projects, class assignments, events, and groups
- My Dashboard on D2L – where it is, what it’s for
- Exposure, Integration and Transformation: (Do activity if extra time – more than 5 minutes) What rating would you give a student who wrote a paper about disposal of eWaste and didn’t realize it was a problem, but now they do? (Add other scenarios to help understand each level)
- Graduation cords – take one to show them
- ePortfolio – show examples and talk about why it is beneficial
- STLR snapshot/printout/showcase rolling out next month – pass around the printout
 - obtain it by going on uco.edu and following the same process of requesting a transcript.
 - Print it on the first floor of the Nigh from the same kiosk where you can print a transcript.
 - Customizable, many versions, like the ePortfolio
- Direct students to the Career Development Center for one-on-one help with what to put/how to work their STLR page and ePortfolio for employers; TRC for technical help (trc@uco.edu or support@uco.edu).
